**Re: Expression of Interest- Rural Broadband Experiments
Connect America Fund, WC Docket No. 10-90**

Dear Chairman Wheeler, Commissioners, and Mr. Chambers,

This is Slic Networks Solution's interest in receiving funds through the Rural Broadband Experiments announced on January 30th during the FCC Open Meeting.

Background

Slic Network Solutions is the CLEC subsidiary of a 110 year old ILEC serving rural upstate New York. Slic currently provides voice, data and video service via fiber optic facilities to rural subscribers. Slic Network has grown substantially over the last 3 years to over 1000 miles of last mile fiber and 4000 subscribers. This growth was facilitated by federal and state grants/loans. We currently are hoping to extend our foot print further into rural areas leveraging the network the was constructed under the grants.

Geographic Territory

Slic Network Solution's plan in this area passes 46 Homes and 9 Businesses. Slic intends to offer Broadband, Voice, and IPTV services to the Town of Bangor in Franklin County.

State	County	County Name	Tract ID
NY	36033	Franklin	36033950300
			36033950200

List of Anchor Institutions

Schools: 0

Libraries: 0

Healthcare: 0

City Offices: 0

Community Centers: 0

Other: 2

Proposed Technology

Service will be delivered to this area via fiber optic cable utilizing Passive optic technology. This is the technology that we have utilized extensively in our network over the last 8 years.

<u>Residential Packages</u>	<u>Price</u>	<u>Speed</u>
Extreme 50	\$99.95	50Mbps/5Mbps
Family 20	\$69.95	20Mbps/5Mbps
Basic	\$44.95	10Mbps/2Mbps
<u>Business Packages</u>	<u>Price</u>	<u>Speed</u>
FiMax 20	\$229.95	35Mbps/10Mbps
FiMax 10	\$149.95	15Mbps/5Mbps
FiMax 8	\$69.95	8Mbps/2Mbps
Entry	\$49.95	5Mbps/1Mbps

Existing Providers

The existing carrier in this area is Verizon and they currently do not provide broadband service in this area.

Project Timeline

Our timeline for this project is approximately 61 weeks from the date of award.

Scalability

This project is scalable in two ways. We can increase bandwidth if needed over the fiber with the use of different optics and the network is designed with growth in mind.

Total Business Investment

\$354,600.00

Investment Needed

This proposal would require a one time investment of \$1,418,400.00 to assist with the initial capital cost of the project. It is believed that the recurring revenue would sustain the project once completed.

Leveraging Funds

This project leverages existing fiber networks that were established with the use of BIP funding. This project uses electronics and backbone

Total Project Cost

\$1,773,000.00

We would like to Thank you for your consideration in our Expression of Interest in your decision for the amount of funding that will be distributed in the Rural Broadband Experiment. We support the FCC in this effort to connect rural communities and are ready to help connect the digital divide.

Sincerely,

A handwritten signature in dark ink, appearing to read "Phil Wagschal", is written over a light blue horizontal line.

Phil Wagschal

President
